

360-degree Peer Review of Contribution to Team Effort

The submission of the deliverables up to this week required the application of the following three software development, project management and teamwork activities from each colleague in your team:

- Contribution to the design and implementation of the current sprint user stories.
- Contribution to the full range of software development activities (including but not limited to requirements capture, analysis and design, coding, testing and documentation).
- Contribution to group work and sharing of work, including group contract, participating in team and client meetings and preparing minutes, issues created and tracking progress; group interaction with client, including summary of meeting and agreed goals; critique of what has worked well and what needs to improve in terms of XP terms and contribution to all other group activities/processes and assignments

Based on the overall combination of the contribution above, rate your colleagues' as well as your own performance in the activities up to now.

IMPORTANT: You *must* assess all your colleagues as well as your own contribution. Use only whole numbers addressing the criteria below:

0	1	2	3	4	5
No contribution	Below satisfactory in 3 criteria or very poor in any activity	Satisfactory in 1 criteria and poor in 2 activities (none/ very poor)	Good in at least 2 criteria and poor in 1 activity	Excellent in at least 1 activity and good in 2 others	Excellent in all 3 activities
